

Effective June 28, 2019, the Pain & Physical Medicine office in Prince Frederick will cease operations as CalvertHealth.

Why are you closing?

Five years ago, we opened the practice when local options for pain management were severely limited. Today, patients have multiple pain practices to choose from. As a result, we have seen declining patient volume which makes it difficult to maintain operations.

What about my prescriptions?

After June 25 the providers of the Pain & Physical Medicine practice will no longer be able to prescribe or refill any medications. It is important to transfer your care before the practice closure. If you have any concerns about your treatment or medications, please discuss this with your care provider.

Where can I be seen?

A list of alternative pain practices is available in our office as well as on our website at CalvertHealthMedicalGroup.org.

How can I transfer my care?

Please see the reverse side of this card for more information on how to transfer your care. Please note that in order to transfer medical records, a medical records release form must be completed and signed. Our office staff can provide this for you or you can download a copy of the form on our website.

Where is my doctor going?

They are currently exploring their options and may choose to continue working through another pain practice. Once that information becomes available, we can notify you so you may continue your care with them.

HOW TO TRANSFER YOUR CARE

Our office will work with you to make sure your records and all applicable information are successfully transferred to the practice of your choice. Here are some steps for navigating the transfer of your care:

1

Please review the listing of alternate pain practices and select the practice in which you would like to continue your care. This listing is available in our office or on our website.

2

Complete the medical records release form so that we may release your records to the practice of your choice. Note that this form is required to transfer your care.

3

Need assistance transferring your care? Contact our office at 410.535.1108 and we will do our best to connect you with a provider that meets your needs. We may also partner you with our Nurse Navigator who will provide one-on-one assistance in managing your transfer of care.

CalvertHealth remains committed to ensuring a smooth transition of your care and is here to assist you as needed.
